Subject Index

Acanthamoeba 185
Acanthocephala and oil pollution 99
Acanthocheilonema (see *Dipetalonema*)
Accessory cells 293–299
Achatina fulica 368
Aedes
  aegypti 161, 218, 233, 277
  caspius 317–320
  genome size 372
AIDS
  and amoebiasis 42
  and Chagas disease 337
  and *Enterocytozoon* 272
  and laboratory animals 64
  and *Pneumocystis* 332–335
Amblyomma 198, 219
Amblyospora 268, 269
Amebiasis (BR) 34
Amoebiasis
  and AIDS 42
  diagnosis 40–43
  pathogenicity 37–43, 111–118, 158, 352–353
  treatment 42, 115
Anatomical drawings of biting flies (BR) 321
Ancylostoma
  braziliense 247
  caninum 156, 205, 247–249
  ceylanicum 204, 205, 247–249
  duodenale 56–58, 200–206, 246, 247–249
  tubaeforme 247
Angiostrongylus
  cantonensis 367–369
  costaricensis 367
  mackerrasse 367
  malaysiensis 367
Animal health
  Chemicals for control (BR) 65–66
Animal husbandry (BR) 64–65
Anisakiasis 44–48
Anisakis simplex
  life cycle 46
  intestinal lesions 47
Anopheles
  gambiae 369, 381, 383
  culicifacies 222–226, 233
  darlingi 166–170
  dirus 218, 383
  nuneztovari 166–167
  scutellaris 383
  stephensi 161, 162, 217, 225, 369
  subgenus *Nyssorhynchus* 166
  subpictus 233
Anoplura 79–80, 276–278
Antigen
  presentation 106–111, 293–299
  polymorphism (see molecular mimicry)
April Notes of Original Discoveries 128–129
Arecoline
  for *Echinococcus* control 145–151
Arrested larval development 171–176
Artefacts
  in tissue sections 273–276
Ascariasis
  in Africa 123–127
Ascaris
  lumbricoides
    and polyparasitism 124–125
    misdiagnosis 273–276
    prevalence in Africa 123–127
    worm burden 56
  renaissance of 128
  sanitation indicator 62–63
  suum
    ecdysteroids 220
    enzyme polymorphism 154
    motility 159
    sex attractant 157
Atoxoplasma 102–105, 250–252
Ayurvedic Medicine 119

Babesia 197–199, 226
Babesiosis 197–199
Besnoitia 101–105, 250–252
Blackhead (see Histomoniasis)
Bloodmeal identification 324–326
Blots 371–383
Blowflies
  and sheep strike 68–69
  and wound protection 214–216
Brugia
  malayi
    DNA probes 377, 378–379
  pahangi
    DNA probes 377, 378–379
    mosquito defence reaction 218
    motility 159
Bonamia ostreae 36
Boophilus microplus 7, 9, 219
Borrelia burgdorferi (see Lyme disease)
Bunostomum trigonocephalum 247

Cable bugs 323–324
Cachectin (see Tumour necrosis factor)
Caenorhabditis elegans 159
Calliphora 214–216
Carbamate pesticides (BR) 257
Carbon tetrachloride
  as anthelmintic 128, 282–283
Cell mediated immunity 300–305
CDRI Researches on Parasitic Diseases (BR) 388
Chagas disease
  autoimmunity 119–120
  control in Brazil 336–341
  control in Venezuela 384–387
Chloroquine
  reversal of resistance 256
  spread of resistance 241–246
Chrysomya
  marginalis 68, 262
  micropogon 68
  rufifacies 68
Clark Foundation 120, 250, 370
Coccidia
  of turkeys 361–362
  taxonomy 101–105, 250–252
Coccidiosis (see Coccidia)
Coccidium (see Coccidia)
Cochliomyia hominivorax (see screwworm)
Codworm (see *Pseudoterranova decipiens*)
Community participation
  in Chagas disease control 336–341, 384–387
  in malaria and filariasis control 222–226, 233–241
Computed Tomography 30–31
Cooperia oncophora 171–176
C-protozoa (see *Sphaerospora renicola*)
Co-Transformation 28–29
Crude oil
  and fish parasites 99–100
Cryptobia 187
Cryptosporidium
  infections of turkeys 364–365
  fluorescent probes for 284–286
Culex quinquefasciatus
  and *Plasmodium* 217
  control in India 225, 237–241
  in latrines 63, 225
C value paradox 372
Cysticercosis 30
Cytoisospora 250–252

Delusory parasitosis 323
Demodex 78, 275
Density dependence
in ectoparasites 277, 308
in helminths 56–58
Dermacentor 86, 198
Dermanyssus 323
Dictyocaulus viviparus 171, 226
Dirofilaria
immitis 377
repens 273
Dipetalonema, 159, 358–359, 377
Diplospora (see Coccidia)
DNA
biotin labelling 182, 383
isolation 220–222, 381
of *Leishmania* 177–184
of *Theileria* 309–311
of *Trypanosoma* 181
precipitation 220–222
probes
for African trypanosomes 371–374
for American trypanosomes 375–376
for *Brugia* 378–379
for *Leishmania* 177–184
for malaria 380, 381
for *Onchocerca* 377–378, 381–383
for vectors 382, 383
separation 60–62
Dracunculiasis
in Cameroon 288–289
Draschia 193

East Coast Fever
chemotherapy 5
control 4–10
distribution 6
enzootic stability 9
Ecdysteroids 219–220
Ecdysone 219–220
Echinococcus
granulosus
control 144–151
DNA probes 220–222
ecdysteroids 219
immunodiagnosis 25
life cycle 144, 261
in W. Australia 261–262
isoenzyme variation 155
